

EASY COLLATERAL

by VERMEG

As the provider of the Eurosystem Collateral Management System (ECMS) platform that will be used by National Central Banks of the Eurozone, VERMEG is happy to introduce EASY Collateral, an end-to-end solution that helps market participants of all sizes meet deadlines, automate their processes and reduce credit and operational risks.

Are you ready for ECMS?

With the ECMS deadlines approaching fast (November 2023), you need to report on your market readiness for the introduction of the new European collateral management system.

It's not too late!

Regardless of where your organization is in terms of ECMS-readiness, VERMEG can help.

Designed for bank treasurers

EASY Collateral is specifically designed for bank treasurers to seamlessly integrate with ECMS and make your life easy:

- / Get permanent access to a comprehensive **digital dashboard**
- / See in real time your **inventory** of available assets, and your position in ECMS
- / Allocate and (de)mobilise **credit claims** and other **marketable collateral** with one click
- / Reduce your operational risk and increase your operational efficiency
