About VERMEG

VERMEG is a specialised software house covering three main market segments in financial services: Banking, Wealth and Asset Management and Insurance. Its business solutions have been designed to address the challenges linked to the transformation of the financial services industry, but also to support these players in the overhaul of their information system; through cost reductions and Time-To-Market control. In addition to offering standard software solutions that meet evolving digitised needs, VERMEG provides tailor-made solutions based on our own tools, project and business expertise.

VERMEG has over 1600 employees, and supports more than 550 clients in 40 countries.
