

MEGARA[®]

Financial Markets & Securities Services

Comprehensive &
modular Suite covering
Post-Trade processing

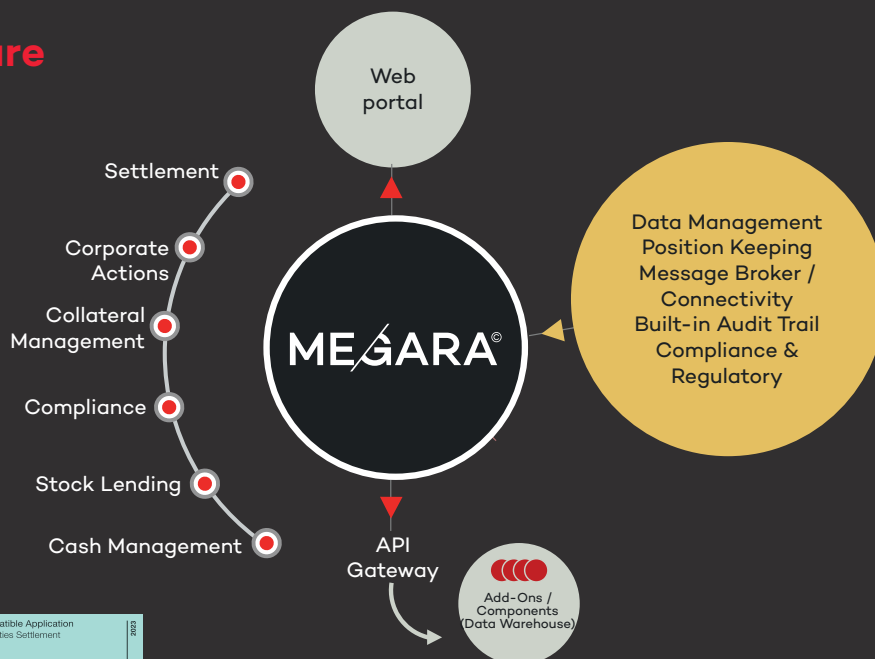

MEGARA delivers real-time custodial risk software to central banks, financial institutions, CCPs and local and global custodians. MEGARA features have been accrued over a decade of adapting market standards on behalf of FMI's. MEGARA maximizes STP and automation while ensuring flexibility and monitoring capacities in a multi-entity and multi-market environment.

Comprehensive and modular suite covering post-trade processing designed with up-to-date technology and an innovative 3 view architecture: operations view, client view and market view. This allows an easier integration of new markets and clients requirements without impacting existing operations.

- / **One hub architecture** allowing a reduction of costs and complexity covering complete lifecycle or select components such as: Settlement, Corporate Actions, Collateral Management, Accounting, Fees, Position Keeping, etc.
- / Continuously updated **with regulatory and best-practices** changes for both global and local markets.
- / Takes advantage of native and real-time connectivity at the best world standards (Swift, ISO20022 etc.).
- / Benefits from **proven implementation methodology** including configurable integration layer for an efficient time-to-market deployment.
- / A multi-asset platform offering full custody services for **both traditional and crypto assets** by integrating MEGARA into the **Digital Custody** ecosystem.

About VERMEG

VERMEG is a specialized software house covering three main market segments in financial services: Collateral Management & Asset Servicing, Regulatory reporting and Digital transformation.

VERMEG is the number one provider worldwide of Collateral Management solutions for Central Banks. Its business solutions have been designed to address the biggest banks and major CSDs & CCPs' challenges linked to the transformation of the financial services industry, but also to support these players in the overhaul of their information system; through cost reductions and time-to-market control.

In addition to offering standard software solutions that meet evolving digitized needs, VERMEG offers tailor-made solutions based on our own tools, project and business expertise.
